

## Your Data. Readymade for AI.

Coginiti makes your data ready for AI by giving enterprises the foundation they need to trust, govern, and scale their analytics. Today's organizations face fragmented tools, rising cloud costs, and inconsistent data that stall AI initiatives. Coginiti changes that by unifying access, governance, and collaboration into a single platform—turning raw data into reusable, governed assets that are instantly consumable by people, applications, and AI. With built-in semantic layers, release management (code sharing, version control, approvals, etc.), and connections to any data source, Coginiti empowers data teams to deliver faster insights, reduce software spend, and accelerate AI value across the business. The result: reliable, consistent, and AI-ready data powering decisions, innovation, and growth.

C A P A B I L I T I E S

**One Door to Data**

Connect to any data source whether on-premise or in the cloud

**Secure**

Meets your data governance and sovereignty requirements

**Data Operations**

Built-in versioning workflow to build, test, deploy data products

**Semantic Layer**

Easy to understand data for AI agents, BI tools, and operational applications

### Case Study: USACE

The U.S. Army Corps of Engineers (USACE) uses Coginiti to unify engineering, environmental, and financial data across secure DoD environments. Facing complex oversight and compliance demands, USACE leverages Coginiti's data operations platform to clean, transform, and govern data. With built-in collaboration, version control, and IL2-IL6 compliance, Coginiti helps USACE accelerate decisions, reduce costs, and keep infrastructure projects on time, on budget, and aligned with mission objectives.

### Case Study: NAVSUP

The U.S. Navy Supply Systems Command (NAVSUP) uses Coginiti to unify supply, finance, and operational data across secure DoD environments. Operating in one of the world's most complex logistics networks, NAVSUP relies on Coginiti's data operations platform to provide real-time visibility, governance, and collaboration. With IL2-IL6 compliance, Coginiti enables faster insight-to-action, reduced costs, and improved productivity—helping the Navy ensure mission readiness, cost accountability, and seamless coordination across its global supply chain.

TRUSTED BY THE WORLD'S most secure ORGANIZATIONS
